

Western Red Cedar

Fencing

Now that you are planning for a fence, you're probably surprised at the variety of fences and styles available.

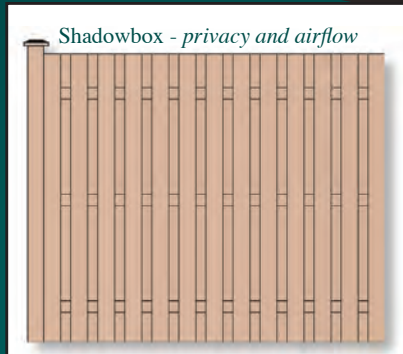

Fences have designed to keep pets and children in and trespassers out, to establish boundary lines, and provide privacy. They have advantages far beyond mere definition of your property lines. A well designed fence can set a mood, change an entrance, guard against accidents in and around your pool and provides a handsome backdrop for plants or barbecues.

There are picket fences of every style imaginable, Shadowbox fences for semi privacy and solid board fences for more complete privacy. There is no limit to the type of fences you can design to best fulfill your requirements and show off your home at its best.

Don't see the style or design that you have been dreaming of? No problem, give us an idea of what you have in mind and we will do our best to make your dreams become a reality.

Why Make Western Red Cedar your Choice?

It is, above all, a wood of exceptional beauty!>>>

Western Red Cedar is a vital part of our outdoor lifestyle. As a Fencing material, real Western Red Cedar is still the natural choice of value-minded homeowners. For some very natural reasons, Cedar is a living legend for its “grown-in-the-wood” resistance to moisture, decay and insect damage. Cedar also has exceptional dimensional stability. It lays flat, stays straight, retains fasteners and provides a firm base for many types of stains and paints. Properly finished and installed, it could be the last fence your home will ever need.

Dutiful, yes but beautiful too, in its natural, unfinished state it has a richly textured, tactile grain combined with a palette of warm, mellow tones ranging from light amber to honey brown. Cedar offers a timeless complement to any architectural style, from traditional to contemporary. It also remains subtly aromatic, and the characteristic fragrance of cedar adds another dimension to its universal appeal. Put Nature on your side with “Today’s Cedar” and enjoy the lasting prestige that imitators can only hint at.

Shadowbox <<<

Often referred to as the "friendly neighbor fence" because of the same appearance on both sides. A Shadowbox Fence will increase both your privacy and security without that "closed in" feeling. This is a great fence for a confined area or if excessive wind is a problem. Each board is overlapped to give privacy yet lets the air flow through.

Quality Privacy Fence is a product that can be used to increase the living area of your home. Screen out unsightly surroundings, or add security and privacy to your patio or backyard.

"The Red Cedar Privacy Fence is awesome in our backyard, it looks like a million bucks."—Fisher

Arbors & Pergolas <<<

"We purchased several sections of Gothic top Picket Fence with a straight top that graces the back of our yard surrounding my "Tranquility Garden".

We also purchased a beautiful Cedar Arbor with a 4 ft. wide gate with a concave top, and two 4 ft. wide sections (with concave top) for either side of the arbor. The arbor is placed where all can see as an invitation to our home.

My husband and I feel blessed to have found such kind folks who give quality workmanship to everything they do. "
